

MERLINO

Furniture Tip-Over Disclaimer

At **MERLINO**, safety is our top priority. Unsecured furniture can pose a serious risk of tipping over, potentially causing injury or damage. To minimize the risk of tip-overs, we strongly recommend:

- **Securing furniture:** Always anchor heavy furniture, such as dressers, bookshelves, and cabinets, to the wall using anti-tip kits or brackets.
- **Following assembly instructions:** Ensure all products are assembled correctly and securely according to the manufacturer's guidelines.
- **Placing heavy items properly:** Store heavier objects on lower shelves or drawers to maintain stability.
- **Keeping furniture stable:** Avoid placing TVs, heavy decorations, or other unstable items on furniture not designed to support them.
- **Supervising children:** Teach children not to climb on furniture, as this increases the risk of tipping.

MERLINO is not responsible for any injuries, damages, or losses resulting from improper assembly, use, or failure to secure furniture as recommended. Customers are responsible for ensuring their furniture is installed safely in accordance with all applicable safety guidelines.
